MINDFULNESS & MINDFUL MESS

WE EMBRACE THE WONDERFUL MESS WE ARE
AND CELEBRATE EVERY ASPECT OF OUR SOUL.

At Pomax, harmony, happiness and health are at the heart of everything we do, it's our purpose, our why. We don't just want happy customers, consumers and suppliers; we want Pomax to be a place where people love to work, where everyone feels valued and connected. We're proud to see that we all strive for the same goal. We are one team, guided by respect, passion and a positive spirit. We offer a safe and warm environment, where our familial character is something you can truly feel. After all, happiness is only real when shared.

We trust in the well-being of body, mind and spirit, and in the power of genuine connection. That's why we also collaborate with external designers who share our Pomax universe, while continuing to develop our own collections with the same care, soul and passion. We believe in conscious consumption: choosing quality over quantity. To choose pieces that last, that carry meaning and uniqueness. Because in the end, harmony is not just a word, it's a way of creating, working and living together.

Among the rugged rocks of Calpe, I found a small sea anemone dancing with the tide. That moment became maNi. A contrast that reflects our own search for gentleness in the harshness of the world."

The Maasai don't just wear colour, they live it. With Liora, I wanted to capture that rhythm: the red of courage, the blue of endless skies, the green of renewal, ... woven into something that feels alive.

Eclipse is born from cosmic inspiration, the rare moment when the sun and moon align, casting the world into a dance of light and shadow. The design language, shaped by a cubic form, echoes the lines of a city, gently covered as the moon passes before the sun. For me: every piece holds a spark of the universe, showing that light endures, even in the shadows.

*Tilt is a playful study in geometry and illusion. At first glance, the clean lines suggest clarity, but look again. Tapered, tilted surfaces and curved edges disrupt the strictness, creating a graphic rhythm that shifts with every angle. Inspired by the surreal world of Salvador Dalí, this collection plays with perception. What you see is never quite what it seems.**
